"...the people at StairWorld helped my dad design and confirm measurements and the day the stairs went up, it was a perfect fit....thanks to everyone at StairWorld for my beautiful stairs. You are all a "step above" and if anyone I know needs a staircase you'll be the first ones I recommend. I would also like to mention the quality of your product. Every piece of it is beautiful and made with care. It is more like a piece of furniture than a piece of my house."
